

The U.S. Department of Health and Human Services announced the availability of funding for the Healthy Homes Technical Studies program (*Catalog for Federal Domestic Assistance number: 14.906*). The purpose of this program is to fund technical studies to improve existing methods for detecting and controlling key housing-related health and safety hazards; to develop new methods to detect and control these hazards; and to improve our knowledge of key housing-related health and safety hazards. The overall goal of the Healthy Homes Technical Studies program is to gain knowledge to improve the efficacy and cost-effectiveness of methods for evaluation and control of housing-related health and safety hazards.

***The application deadline is March 19, 2013***

Eligible applicants include state and local governments, institutions of higher education and other nonprofit organizations. For profit companies are eligible, however, they are not allowed to earn a profit from the grant.
